DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/14/04 has been entered.

Claim Objections

2. Claims 2, 5 and 15 are objected to because of the following informalities: claim 2, last line after signal, "output by the amplification step and the I channel or the Q channel not amplify by the amplification step" should be inserted so as to be consistent with the specification and Fig. 9 of the drawing. The same comment applies to claims 5 and 15. In addition, applicant is required to submit a new set of claims as the quality of the one provided in the last office action is poor. Appropriate correction is required.

3. This application is in condition for allowance except for the formal matters noted above.

Art Unit: 2637
